NOTES

This table is intended as a guide only and the user should check against the EU certificate for Intra-Community Trade in Bovine animals for breeding.
No liabiilty is undertaken by the producer of this information and the exporter should check with DEFRA before proceeding with any part of the operation.
The additional requirements for certain individual countires have been added where known, however there may be others which we are unaware of at date of issue & exporter should check before proceeding.
* Switzerland is non-EU country, however usually follows EU guidelines, with some additional testing.
